PROFILE

Experienced full stack developer with a passion for delivering high-quality, scalable, and user-friendly web applications. Proficient in MERN stack technologies. Strong problem-solving skills, attention to detail, and ability to work effectively in a team environment. I have a proven track record of delivering successful projects. Seeking a challenging and rewarding full stack developer role where I can continue to grow and make a positive impact.

WORK EXPERIENCE

MERN Stack Developer

NXT Labs

August 2022 - current

- Developed a Node.js based project from scratch with an MVP focus
- Implemented a real-time chat system using Socket.io
- Utilized Amazon S3 for storage and Amazon SES for email notifications
- Incorporated Redis for caching Socket.io user IDs
- Created leaderboards and game competitions features
- Designed and developed scalable, high-performance and reliable systems to meet project requirements.
- Used Passport Js Local Strategy as well as JWT Strategy alongwith refresh tokens to authenticate users.
- Worked with Sequelize ORM on top of Postgresql
- Error logging with Winston and Morgan
- Coordinated with project manager and team members to deliver QA passed MVP on time leading to client satisfaction
- Received employee of the month award for September 2022 for designing and implementing backend for a gaming platform

Remote Full Stack Developer

Proleadsoft

March 2021 - August 2022

- Analyzed existing software implementations to identify areas requiring improvement.
- Worked on translating designs to a website using React and Tailwindcss.
- Wrote and consumed GraphQL queries and mutations using Apollo client.
- Created complete admin panel for adding and managing items on the database.
- Testing React components with Jest and react-testing-library
- Created complete discussion board chat module for projects which includes different threads for real time chat messages.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs, and enhancements.
- Worked on redesigning the front-end components in React Native mobile app.
- Gave online session to team on working with react testing library to improve code quality.
